Nico & Vinz

Is it true what they say about you
Do you want me love are you playing me for a fool
See, I've been waiting for too long
Darling, been feeling long to know
I don't know what the future holds
You're moving, the truth unfolds

Heard your hips don't lie
I'mma listen to you
This been on my mind
All that we can do, yeah
Your body's talking, it's talking loud
Listen to it
Your body's talking, it's talking loud
Listen to it

Sexy lady, will you dance with me?
Body talking like a tambourine
Don't have to tell me 'cause I'm onto you
I want it if you want me to
Move your body, speak your mind
Bodytalk, I know the signs
Fire blazing, blow my mind

Heard your hips don't lie
I'mma listen to you
This been on my mind
All that we can do, yeah
Your body's talking, it's talking loud
Listen to it
Your body's talking, it's talking loud
Listen to it

Hold me, hold me
Love me, save me tonight
Hold me, hold me
Love me, save me tonight
You got me undone
I can really feel it, baby
You're the one
The way you move
It's all you
You know what I want

Heard your hips don't lie
I'mma listen to you
This been on my mind
All that we can do, yeah
Your body's talking, it's talking loud
Listen to it
Your body's talking, it's talking loud
Listen to it
