## **Sleepwalking**

## **Nicole Atkins**

My, my, my, my past lives have got me weary I, I, I, tiptoe past so you can't hear me You wake up in the middle of the night With your heart beating hard Knowing something isn't right

I'm sleepwalking
Sleepwalking
Around the world I used to dream in

So much time has gone by but I'm still haunted To forgive and forget is all I wanted Past is past, I should leave it where it lies

I can smile to your face but you can see it in my eyes

I'm sleepwalking
Sleepwalking
Around the world I used to dream in
Waiting to begin again
Until then I'm sleepwalking

I'm sleepwalking
Sleepwalking
Around the world I used to dream in
Waiting to begin again
Until then I'm sleepwalking
