

# Midnight Music

Nikki Flores

Yeah, yeah

Imma turn it on, when you turn me on  
We can play it all night until the morning  
The music that we make is our favorite song  
Yeah, we making midnight music

Candles burning  
Lights dim  
Listening to Marvin Gaye and Prince  
Bodies yearning  
Goosebumps everytime you touch me baby

Fingers make their way to places  
Baby I start shivering  
We can set this thing off  
Set it off  
But boy it all depends

We can take it fast or slow  
Make ya body rock with my tempo  
Whether it's a slow jam  
Speeded up to old jam  
Baby ain't no tellin' where we'll go

Imma turn it on, when you turn me on  
We can play it all night until the morning  
The music that we make is our favorite song  
Yeah, we making midnight music

Go'n baby take it off  
Throw 'em on the floor  
Where they belong

The music that we make is our favorite song  
Yeah, we making midnight music

Come protect this body  
Lock it up and chain it to the bed  
Go long as you want it  
Come on baby  
You ain't finished yet

Take out all your stress on me  
Come on let me show you luxury  
Investigate this body  
While you're all on me

We can take it fast or slow  
Make ya body rock with my tempo  
Whether it's a slow jam  
Speeded up to old jam  
Baby ain't no tellin' where we'll go

Imma turn it on, when you turn me on  
We can play it all night until the morning  
The music that we make is our favorite song

Yeah, we making midnight music

Go'n baby take it off  
Throw 'em on the floor  
Where they belong

The music that we make is our favorite song  
Yeah, we making midnight music

Imma turn it on, when you turn me on  
We can play it all night until the morning  
The music that we make is our favorite song  
Yeah, we making midnight music

Go'n baby take it off  
Throw 'em on the floor  
Where they belong

The music that we make is our favorite song  
Yeah, we making midnight music  
Yeah
