Evil sick flames cast uncertain shadowsin the dimly lit Temple of

Anhur as we count the dead and vanquished by hacking off their phalluses and piling the severed hands before the living stone image of God.

The shamed and humbled women of the subjugated kneel in hopeles s

Aquiescence as we grasp them by the hair and force them to serv

our father Anhur.

Yea we impale them on the massive stone member of the Ithyphall ic

War God until the backs of their throats are torn out and their bowels are ripped apart.

One by one we force the female captives to serve the Ahati unti

the Gods legs are awash with blood and his phallus drips with red and black gore Un snem sheth tesher mekhsefu parthal m aba $neth\ Anhur.$

We lay our bloodstained weapons of Iron on the altar of Anhur a

His Seed blesses us with strength to slay our enemies Like as u nto

Menthu we have become Ithyphallic.

The mighty Sekhmet is with us.
