

# Keep It Live

Nina Hagen

Baby say mama  
Keep it live  
keep it live  
dont be so square  
just keep it live

A baby is born in the storm and torn apart  
from its mother like no other  
everytime a baby is born its a new creation  
its a unique situation  
an active birth that what it is  
a mighty creation the result is pure bliss  
have created a growing live  
have done the hardest job, come on  
gimme 5  
and if the babys father is there too  
then what they sayn heaven is true  
love will result in ekstasy  
cause one plus one plus one makes 3

The magic number happy birthday to you  
the magic number happy birthday to you  
happy birthday my sweet baby  
shiva shiva shiva shamboo  
makadeva shamboo  
the miracle of giving birth the prophecy has been  
fullfilled the baby is born omn planet earth and  
everyone is totally thrilled

Keep it live  
keep it live  
dont be so square  
just keep it live

I know ist for real  
when I feel what I fell
