

# Leroy And Me

## No More Kings

Two six guns  
Me and my partner  
We got a head start  
On the run now  
We made it this far  
Done with the hard part

Can't slow down now  
Riding too hard  
Riding too far  
Running for so long

Can't look back now  
Eyes straight ahead  
Left them for dead  
It just feels wrong

(Ooh, na na na na)  
We gotta turn it around  
(Ooh, na na na na)  
They let their guard down  
(Ooh, na na na na)  
We gotta pick up the pieces  
And stitch up the seams again

I'm not afraid of the law man  
Coming to take me away  
Back to where we started from

(Hey, don't wait for Leroy and me)  
You got one foot out the door  
We're already on the dance floor  
(Hey, don't wait for Leroy and me)  
We'll shoot 'em down now  
We'll shoot 'em down now  
We need to be free

We got it made, two renegades  
They think we're crazy  
But we're living our dreams  
Jumping from trains  
These are the good days  
Guns ablaze in the chase scene

(Ooh, na na na na)  
We oughta write this one down  
(Ooh, na na na na)  
It's what we'll laugh about  
(Ooh, na na na na)  
With our walkers and canes  
We'll still be racy

I'm not afraid of the law man  
Coming to take me away  
Send him back to where he started from

(Hey don't wait for Leroy and me)

You got one foot out the door  
We're already on the dance floor  
(Hey don't wait for Leroy and me)  
We'll shoot 'em down now  
We'll shoot 'em down now  
We need to be free!  
We need to be free!

Let me hear a little guitar!

I'm not afraid of the law man  
Coming to take me away  
Send him back to where he started from  
Back to where he started from

(Hey don't wait for Leroy and me)  
You got one foot out the door  
We're already on the dance floor  
(Hey don't wait for Leroy and me)  
We'll shoot 'em down now  
We'll shoot 'em down now  
(Hey don't wait for Leroy and me)  
Hey don't wait for Leroy  
Oh, Leroy and me  
(Hey don't wait for Leroy and me)  
Hey don't wait for Leroy and me  
(We'll shoot 'em down now)  
(We'll shoot 'em down now)
