

# Unfinished

Noah Cyrus

You blew rings in your cigarette  
And I undress on the king-sized bed  
And you said, "Baby, you can take your time  
We've got nowhere else to go tonight."  
19, I was still afraid  
Afraid of love and afraid of change  
But I felt you touch me in a whole new way  
Fell into you like a leap of faith

I, I still remember the way we kissed goodbye  
I guess I met you at the wrong time

But now I've got you on my mind  
And I'm wonderin' tonight  
If we could've been more, but we were left unfinished  
And that one night was beautiful  
The streets were cold but we were warm  
And we could've been more, but we were left unfinished

I flew back to the life I knew  
Left you asleep there in the hotel room  
I told myself that it was for the best  
You live east and I live way out west  
I've got a slideshow inside my head  
Of might've-dones and our could've-beens  
If it's a purely hypothetical love  
Then tell me why I gotta miss it so much

I, I still remember the way we kissed goodbye  
I guess I met you at the wrong time

But now I've got you on my mind  
And I'm wonderin' tonight  
If we could've been more, but we were left unfinished  
And that one night was beautiful  
The streets were cold but we were warm  
And we could've been more, but we were left unfinished

Ooh, yeah, we were left unfinished  
Oh, oh, oh, oh, oh, oh

All I've got is a memory  
It's a masterpiece  
But it's incomplete  
And I just fill in the empty space  
With a dream of what we'd be  
If I had stayed

But now I've got you on my mind

And I'm wonderin' tonight  
If we could've been more, but we were left unfinished  
And that one night was beautiful  
The streets were cold, but we were warm  
And we could've been more, but we were left unfinished  
Love

Oh, oh, oh, yeah, we were left unfinished, oh, oh, oh, oh
