

## Lover

Noah Gundersen

I don't need no lover  
I need a mother to come to my room  
I don't need no father  
I need an ocean to carry my mood  
I need your love  
I don't need no one else around  
I need your love  
I need to get the hell out of this town

I don't need no lover  
But I sure like keeping you around  
I don't need no lover  
I'll try not to let you down

I don't doubt it  
I got a feeling  
I'll keep seeing you around

I don't need no lover  
But I sure like keeping you around  
I don't need no lover  
I'll try not to let you down

I don't need no lover  
But I sure like keeping you around  
I don't need no lover  
I'll try not to let you down
