```
I don't need no lover
I need a mother to come to my room \,
I don't need no father
I need an ocean to carry my mood
I need your love
I don't need no one else around
I need your love
I need to get the hell out of this town
I don't need no lover
But I sure like keeping you around
I don't need no lover
I'll try not to let you down
I don't doubt it
I got a feeling
I'll keep seeing you around
I don't need no lover
But I sure like keeping you around
I don't need no lover
I'll try not to let you down
I don't need no lover
But I sure like keeping you around
I don't need no lover
I'll try not to let you down
. . .
