

# Number One Hit of the Summer

Noah Gundersen

Is this the good life  
You were imagining  
Tied up and tired  
Of everything

Overreacting  
Everyone's laughing  
Totally distracted  
Just one of the masses  
Cut up, cut up to pieces

(Ooh, ooh, ooh...)

Deer in the headlights  
Frozen in the street  
Head above the water  
Still swimmin' up stream

Fade in, fade out  
A car crash  
We can't stop now  
When everybody's watching you drown  
So fade out

All of the bodies  
Up against the line  
Coming over  
One at a time

The only way out  
Of this god damn landfill  
Number one hit of the summer  
You can go and fuck yourself

Fade in, fade out  
A car crash  
We can't stop now  
When everybody's watching you drown  
So fade out  
Fade in, fade out  
A car crash  
We can't stop now  
When everybody's watching you drown  
So fade out  
Fade out

(Ooh, ooh, ooh...)
