

## So What

Noah Gundersen

No one said it would be easy  
No one said it would be this hard  
I thought I'd get it right after the first few tries  
But I just keep coming back to the start

There is a lesson in motion  
Gripping the wheel as you steer  
You gotta look through the turn as you're starting to swerve  
Cause nothing burns faster than fear

So slow down  
And look up  
Stop acting so tough  
Say I love you  
Way too much  
And if it kills you  
So what

Thousands of tiny explosions  
Are keeping this thing on its wheels

But it's a limited metaphor  
You gotta give it a minute or you will never properly heal

Someone's deciding my future  
Someone decided my past  
Somebody said man it's all in your head  
You're the only one that's making this last

So slow down  
And look up  
Stop acting so tough  
Say I love you  
Way too much  
And if it kills you  
So what

So slow down  
And look up  
Stop acting so tough  
Say I love you  
Way too much  
And if it kills you
