

There Was Sun

Nothing But Thieves

There was
Sun
Shone down upon me
Felt so warm on me
Golden leaves hanging on the trees

So much
Sun
The summer shimmer
I saw a glimmer
I could be who I wanna be

I could dream

Oh, I wish I could dream that
I could dream like I used to dream
Oh, I wish I could be all the things that I used to be
Oh, I wish I could dream that
I could dream like I used to dream
Oh, I wish I could be all the things that I used to be

There was
Sun
Indica head rush
Bursting upon us
All my flaws lying on the ground
In the
Sun
I'm not a stranger
Black hearted angel
Oh, I hate when you're not around

Some days I feel somewhere else or somewhere in between
Some days I don't feel a thing at all
Now I'm pulling back the screen to let the future in
The light comes flooding in
The light comes flooding in

Oh, I wish I could dream that
I could dream like I used to dream
Oh, I wish I could be all the things that I used to be
Oh, I wish I could dream that
I could dream like I used to dream
Oh, I wish I could be all the things that I used to be

When there was sun
When there was sun
When there was sun
There was sun

Some days I feel somewhere else or somewhere in between
Some days I don't feel a thing at all
Now I'm pulling back the screen to let the future in
The light comes flooding in
The light comes flooding in

Oh, I wish I could dream that

I could dream like I used to dream
Oh, I wish I could be all the things that I used to be
Oh, I wish I could dream that
I could dream like I used to dream
Oh, I wish I could be all the things that I used to be

When there was sun
When there was sun
When there was sun
There was sun
