

## Justice

## Nuclear Assault

"When the law becomes a tool of the rich  
And not a shield for the masses"

You now you finally see the truth  
There's no justice in the world fOr us  
Oh and equality's just a dream  
There's no system we can trust

In this world  
There's no justice

No they can't hide it anymore  
We are not as equal as the rest  
Now maney can make justice blind  
The more you've got the blinder it gets

In this world  
There's no justice

Now we'll see  
What the future will bring

We cannot beat the system now  
The only thing we can do is survive  
Hope, that there will come a day  
When justice is an eye for an eye

In this world  
There's no justice
