

It Starts Today

Obey the Brave

it's time to find my way
I can't just walk away
i'd rather play then quit halfway

can't hold me back
life has no guarantees
the road awaits me
fuck this, get me back across the sea

here we go
live it up cause you'll never know when your time is up
so enjoy the show

here we go
live it up cause you'll never know when your time will come
it feels like my life has just begun
run free

if it was up to me
we'd stick tight like family
I never thought we'd get this far
now that we're done, I still want more
let's run far away
the world is mine
it starts today

can't hold me back
life has no guarantees
the road awaits me
fuck this, get me back across the sea

stronger everyday
can't stop me
stronger everyday

i've got a mouth for war
live the life on tour
i'm back for more
up all night, asleep all day
we live large
stronger everyday

things are going fast
time to move, can't finish last
can't stop cause I want more
it's time to knock on doors

break through! Fight for what's true
break through! Fight for what's true
break through! Fight for what's true
stick to your roots

here we go
live it up cause you'll never know when your time is up
so enjoy the show

here we go

live it up cause you'll never know when your time will come
it feels like my life has just begun
