

Yeah!

Yeah, you've heard that I was dead
And now you can't get me out of your head
Yeah, you thought that I was gone
But I've been waiting to say this for so long

You know you really make me sick
Reused that line because the shoe fits
While you dug your pit, I built a bridge
Walked across and now I'm over it

I hope it keeps you up at night

You hateful fake
There's no stopping me, you're getting in my way
One day
You will realize that you're to blame
And I bet you never stopped to think
What didn't kill just built and strengthened me
Strengthened me

Oh, bring the heat!
I'm forged in flame!

Every stick and stone you threw at me
My skin thickens while you just grow weak
A failed lesson in each one you cast
You turned your house into a pile of glass

I hope it keeps you up at night, yeah yeah
I hope it never leaves your mind

You hateful fake
There's no stopping me, you're getting in my way
One day
You will realize that you're to blame
You hateful fake
There's no stopping me or getting in my way
One day
You will realize that you're to blame
And I bet you never stopped to think
What didn't kill just built and strengthened me

I hope it keeps you up at night, yeah yeah
I hope it never leaves your mind
I hope it keeps you up at night, yeah yeah
I hope it never leaves your mind

Bring the heat!
Bring the heat!
