

# How Will You Live

## Of Mice & Men

It's time for a fight  
And now they're drawing their lines  
And you know it's not right  
When you're stuck picking sides

It's the invisible enemy

If I can't see it, then how can I believe it  
Tell me how (tell me how) will you live?  
How will you live? How will you live?  
If you hide what eats you alive when no one sees you  
Tell me how (tell me how) will you live?  
How will you live? How will you live?  
How will you live? How will you live?  
How will you live? How will you live?

It's time for a fight  
Between the heart and the mind  
And you know it's not right  
When you're stuck picking sides

It's the invisible enemy

If I can't see it, then how can I believe it  
Tell me how (tell me how) will you live?  
How will you live? How will you live?  
If you hide what eats you alive when no one sees you  
Tell me how (tell me how) will you live?  
How will you live? How will you live?

When fear and pain suffocate  
Tell me how will you live?  
Will you disclose or will you break?  
Tell me, how will you live?

How will you live?  
How will you live?  
How will you live?

If I can't see it, then how can I believe it  
Tell me how (tell me how) will you live?  
How will you live? How will you live?  
If you hide what eats you alive when no one sees you  
Tell me how (tell me how) will you live?  
How will you live? How will you live?  
How will you live? How will you live?  
How will you live?  
If you hide what eats you alive when no one sees you  
Tell me how (tell me how) will you live?  
How will you live? How will you live?  
How will you live? How will you live?  
How will you live? How will you live?
