

Sleepwalker

Of Monsters and Men

I start a war
No time to think about it
It might blow over soon

I start a war
No way to get around it
It might blow over soon

You make me feel like a ghost
Walking around, talking in my sleep
Talking in my

Sleepwalking in Mexico, the lights are out
I still dream in indigo when you're around
Sleepwalking in Mexico, the lights are out
I still dream in indigo when you're around

I still dream in indigo when you're around

Three paper moons
I know the colour's fading
It might get colder soon

This neighbourhood
Feels like it's always changing
It might get colder soon

You make me feel like a ghost
Walking around, talking in my sleep
You make me feel like I'm lost
Up in the clouds, talking in my sleep
Talking in my

Sleepwalking in Mexico, the lights are out
I still dream in indigo when you're around
Sleepwalking in Mexico, the lights are out
I still dream in indigo when you're around

I start a war
No time to think about it
(I still dream in indigo when lights are out)
I start a war
No way to get around it
(I still dream in indigo when lights are out)
