## Match

of Verona

Don't want to say it out loud Not sure I like how it sounds But I need you so much That's it's breaking me down

So I'll say it now Before I get too proud When I think of your touch I want to live in your mouth

Think you reached this message in error When you lie in the dark, know that I see

It was good for me With your thigh on my knee Your hand in my hair We were everywhere It was good for me Pure ecstasy Both pleasure and pain Rolled into the same

(You know it was good for me)

Do you know what you've done Do you know who I've become Was an angel I think With a devilish side

Think I need to hear a forever When I lie in the dark Just know that I see

It was good for me With your thigh on my knee Your hand in my hair We were everywhere It was good for me Pure ecstasy Both pleasure and pain Rolled into the same

I was the match I was the match I was the match That lit you on fire

I was the match I was the match I was the match That lit you on fire
