

After the Storm

Oh Land

Normal days
Monotonous haze
Little complaints
Seem so important
Flip the page
And crisis hits
Gonna push through
Gonna show you
Gonna just do
I'm left with no choice

After the storm
We're moving slower
Even the wind blows a little warmer now
After the storm
We're starting over
Even the rain knows that I am different now
Even the rain knows that I am different now

Chaos stops
The real work starts
Gonna clean up, gonna build up
Gonna realize the shock isn't over
We can talk
But words aren't enough
Gonna let my body adjust
Gonna let time catch us

After the storm
We're moving slower
Even the wind blows a little warmer now
After the storm
We're starting over
Even the rain knows that I am different now
Even the rain knows it will be different now

No time to look forward
No time to look back
Gonna keep on pushing onwards
Gonna keep us on track

No time to look forward
No time to look back
Gonna keep on pushing onwards
Gonna keep us on track

After the storm
We're moving slower
Even the wind blows a little warmer now
After the storm
We're starting over
Even the rain knows that I am different now

After the storm
We're moving slower
Even the wind blows a little warmer now
After the storm

We're starting over
Even the rain knows that I am different now
Even the rain knows that I am different now
