

Helicopter

Oh Land

So close but I still cannot hear it
Something exciting is gonna happen
Don't wanna share don't wanna show
I want to be the only one to know
Grow on me
What's in there hiding?
I will fall through the water side and

Take off to a place I've never seen
I'll find it from my helicopter
Away from who I used to be
I'll get there in my helicopter

Don't worry now don't make a promise
You know I won't ever be careless
I won't forget nor change my mind
I won't kill anything I leave behind
Let me grow
There is no more hiding
Go, go, go through the water side and

Take off to a place I've never seen
I'll find it from my helicopter
Away from who I used to be
I'll get there in my helicopter

Take off to a place I've never seen
I'll find it from my helicopter
Away from who I used to be
I'll get there in my helicopter
