Did you really carry me when I was asleep Did you try to defend me when I was weak Did you pick me up that lonely night When the lights died out And they turned to the gray side

Did you carry me when I was asleep Now you're out on the bottomless sea So it's time for you to lean on me Lean on me

Now you're out on the bottomless sea So it's time for you to lean on me

Did you lie for me To keep me safe Did you bare with me When I misbehaved

Far from here could you feel my fear When the lights died out
And they turned to the gray side

Did you lie for me To keep me safe

Now you're out on the bottomless sea So it's time for you to lean on me Lean on me

Now you're out on the bottomless sea So it's time for you to lean on me Lean on me

Water falling down
Frozen on the ground
I'm trying to stop the light

Now you're out on the bottomless sea So it's time for you to lean on me Lean on me Now you're out on the bottomless sea So it's time for you to lean on me Lean on me
