

# Love A Man Dead

Oh Land

I can love a man dead  
I can love a man dead  
She can love a man dead  
She can love a man dead

There is a dark horse living in my hood  
I'm sure you've walked past him changing your mood  
He is a slow worker, down in every detail  
He is a chameleon always blending in

That's what his girls are - fuel on his engine  
A carnivore, hate him like you never loved someone before  
Makes his shadow soak up your sunshine  
He will get you in his car and then he locks the door

No need, no need to run  
Throw in the towels, drop your gun  
My heart is my only weapon  
I can love a man dead  
No need, no need to hide  
Throw in the towels, stop the fight  
My heart is my only weapon  
I can love a man dead

I can love a man dead  
I can love a man dead  
She can love a man dead  
She can love a man dead

Now he is scouting walking round the block  
What kinda sad people, people do that  
He had a baby sister  
Didn't know much about her  
But the way you look at him  
Makes him feel she is living

Now he's a stray dog  
I'm the bone who can make him feel at home  
A loner, doesn't know what it means when you say no  
Tears taught him everything you love, you will lose  
He is making up his truth in a web of disillusion

No need, no need to run  
Throw in the towels, drop your gun  
My heart is my only weapon  
I can love a man dead  
No need, no need to hide  
Throw in the towels, stop the fight  
My heart is my only weapon  
I can love a man dead

We were taught and raised to believe that man is kind  
But love has many faces and some of them are blind

I can love a man dead  
I can love a man dead  
She can love a man dead

She can love a man dead

We're born, we're raised to believe  
Human is kind  
We're young, we're free to believe  
Strong in our minds

No need, no need to run  
Throw in the towels, drop your gun  
My heart is my only weapon  
I can love a man dead  
No need, no need to hide  
Throw in the towels, stop the fight  
My heart is my only weapon  
I can love a man dead

We're born, we're raised to believe  
Human is kind  
We're young, we're free to believe  
Strong in our minds
