

Speak to Me with Love

Oh Land

Send the troops in - here they come
See them marching one by one
But that won't scare me off
Just speak to me with love
And I will stay soft

Daggers will fly
Around my ears tonight
And the only weapon I know how to handle right
Is staying out of sight

So send the troops in - here they come
See them marching one by one
But that won't wind me up
Just speak to me with love
And I will open up

Silence is all
I can throw against the wall
And the louder you will shout
The longer I will shut my mouth

Send the troops in - here they come
See them marching in one by one
But that won't scare me off
Just speak to me with love
And I will stay soft

Send the troops in - here they come
See them marching in one by one
But that won't wind me up
Just speak to me with love
And I will open up
