

Set me free from the prison of the past
Don't trap me in your story
You will fall from the shaky ground you stand
On guard and protect your dynasty
To fend the fall intruders
It's the sign of the fear that you bring

You twist dismiss my memory
Now let's twist things into a harmony
You twist dismiss my memory
So let's twist things into a harmony

Assembly line is diversity of threat
Breaking all the borders
I don't think this is as far as we can get
Control, a chance to prove your power
Hope seems so distant
When you think we're all cowards

You twist dismiss my memory
Now let's twist things into a harmony
You twist dismiss my memory
So let's twist things into a harmony

You twist dismiss my memory
Now let's twist things into a harmony
You twist dismiss my memory
So let's twist things into a harmony

Get me in assembly line
Control control
Prison me in fear, prison me in power
Tick tick
Breaking we're all, breaking we're all
Get get get control

You twist dismiss my memory
Now let's twist things into a harmony
You twist dismiss my memory
So let's twist things into a harmony
