## Twist

Set me free from the prison of the past Don't trap me in your story You will fall from the shaky ground you stand On guard and protect your dynasty To fend the fall intruders It's the sign of the fear that you bring

You twist dismiss my memory Now let's twist things into a harmony You twist dismiss my memory So let's twist things into a harmony

Assembly line is diversity of threat Breaking all the borders I don't think this is as far as we can get Control, a chance to prove your power Hope seems so distant When you think we're all cowards

You twist dismiss my memory Now let's twist things into a harmony You twist dismiss my memory So let's twist things into a harmony

You twist dismiss my memory Now let's twist things into a harmony You twist dismiss my memory So let's twist things into a harmony

Get me in assembly line Control control Prison me in fear, prison me in power Tick tick Breaking we're all, breaking we're all Get get get control

You twist dismiss my memory Now let's twist things into a harmony You twist dismiss my memory So let's twist things into a harmony

## **Oh Land**
