

Just Before I Go to Sleep

Oleta Adams

Just before I go to sleep
I say a prayer that God will keep
The two that heals join together
Safe and more in love than ever

Help us find shelter in each other's arms
Where love's a fire that keeps us warm
And when we're laden down with care
We're gonna take it up in prayer

Teach the right words to say
Words that will help us find our way
And when we are blinded by pride and greed
Open our eyes, take control, take the lead

Help us to laugh and to cry
To kiss away the tears from each other's eyes
We'll be patient and we'll be kind
And love each other just the way you designed

Hearts may be broken down to the core
Help us forgive without keeping score
With you here to guide so great and divine
Our love will continue to shine

Help us to laugh and to cry
To kiss away the tears from each other's eyes
And we'll be patient and we'll be kind
And love each other just the way that you designed
