

# This Love Won't Fail

Oleta Adams

Is any problem too great?  
Just take one step of faith  
And mountains will fall

I offer you the truth  
If you need it, love will be there for you

God will never put you down  
Lifts you up when you're bound  
Just give God a chance

If there's any fear at all  
Come closer and see

This love won't harm you  
This love remains true  
This love is for you, not against you  
This love won't fail

There's no need for being lonely  
Such a love will never leave  
Just listen to me

God will fill the empty places  
Turn around and see who's been there all the time  
Waiting to come into your life

This love won't harm you (...no, He won't)  
This love remains true  
This love is for you, not against you  
This love won't fail

This love won't harm you (no, He won't)  
This love inspires you (yes, it does)  
This love is for you, not against you  
This love won't fail

Love, love is kind, it doesn't boast, or seek to lie  
God will be your friend, 'til the very end  
Love is always there and He always cares

This love won't harm you (no, He won't)  
This love remains true  
This love is for you, not against you (He's not against you)  
This love won't fail (Love)

This love won't harm you (love, won't harm you, no, no)  
This love remains true (remains true, He cares)  
This love is for you, not against you  
This love won't fail

This love won't harm you (love, won't harm you)  
This love remains true (oh love remains true)  
This love is for you, not against you  
This love won't fail (God won't fail)

This love won't harm you (I am a witness today)

This love remains true  
This love is for you, not against you  
This love won't fail

This love won't harm you (ohh, He won't harm you, no, no)  
This love remains true (He cares now)  
This love is for you, not against you (He's not against you)  
This love won't fail
