

# Dark Water

Olga Lounová

Save me from myself  
Take me somewhere else  
An echo of my fears  
They can't reach me here

Call it fate  
Call it luck  
Call it gravity  
Call it fluke  
Call it chance  
Call it you and me

I need a place to hide  
Where I can find the light

Drowning in dark water  
I could die like that  
In dark water  
Shadows never last  
Hold me in dark water  
Till I forget the past  
Let the universe collapse  
In dark water

I'm calling out your name  
I fear I might have lost my way  
Can you teach me how to trust?  
In where I've been and who I was

Drowning in dark water  
I could die like that  
In dark water  
Shadows never last  
Hold me in dark water  
Till I forget the past  
Let the universe collapse  
In dark water  
In dark water

Know we may be running out of time  
We'll be fine  
Somehow  
And we will live forever

Drowning in dark water  
I could die like that  
In dark water  
Shadows never last  
Hold me in dark water  
Till I forget the past  
Let the universe collapse  
In dark water  
In dark water
