

# Don't Cut Me Down

Olivia Newton-John

I'm tall I need room to grow  
I need the sun in my eyes  
My home is the earth below  
One day I know I will touch the sky

Don't cut me down  
For I am innocent  
Don't cut me down  
I am your friend

I sigh when the four winds blow  
I cry when the cool rains fall  
I shine in the moonlight's glow  
I am a home for the great and small

Don't cut me down  
For I am innocent  
Don't cut me down  
I am your friend

Give me a year  
A year another year  
It takes me time for new life to appear  
You cut me down  
Quicker than I can regrow  
Give me a chance  
I am the air you breathe  
Imagine what life would be without me  
I have been here  
Longer than you have you know  
Harvest the seeds you sow

Don't cut me down  
For I am innocent  
Don't cut me down  
I am your friend

I'm tall I need room to grow  
I need the sun in my eyes  
My home is the earth below  
One day I know I will touch the sky

Don't cut me down  
For I am innocent  
Don't cut me down  
I am your friend

For I will never mend  
Don't cut me down  
I am your friend
