

Everything Love Is

Olivia Newton-John

Love is patient, love is kind
Love answers to the heart and not the mind
Love is faithful and sees you through
Everything love is, I learned from you

And love is wise, forgives the fool
Well, love decides, it's not up to us to choose
And if hope falters, love knows what to do
And everything love is, I learned from you

And you opened up the door
And you warmed me in the light
Now if you want me, I am yours
All the days of my life

And love will lead us if we'll go
And love will leave us if we don't
Love is one heart shared by two
Everything love is, I learned from you

And you opened up the door
And you warmed me in the light, yeah
Now if you want me, I am yours
All the days of my life

And love will lead us if we go
And love will leave us if we don't
Love is one heart shared by two
Everything love is, I learned from you
Everything love is, I learned from you
I learned from you
