Someone's in the kitchen
Trying to cook me up some trouble
Someone's in the kitchen
Trying to stir me up inside
He's been itching to try and burst my bubble
All this friction is killing my appetite

Get out - if you can't take it

Get out - if you can't take the heat

Throw your dirty looks out with the garbage

Humble pie is one thing I won't eat

Just because you're laid off at the office Just because it's now all up to me You're forgetting all the things you promised It's the age of equal opportunity

Get out - if you can't take it

Get out - if you can't take the heat

Throw your dirty looks out with the garbage

Humble pie is one thing I won't eat

Oh - the kids are fine
We should use this time
To make some plans
Oh - I know it hurts
With our roles reversed
But darling you'll be a better man

Yes I know it's hard to do the laundry
Yes I know it's hard to mind the kids
It doesn't matter who does what, we're family
I'm just working to keep us off the skids

Get out - if you can't take it

Get out - if you can't take the heat

Throw your dirty looks out with the garbage

Humble pie is one thing I won't eat

Get out - if you can't take it

Get out - if you can't take the heat

Throw your dirty looks out with the garbage

Humble pie is one thing I won't eat

Humble pie is one thing I won't eat... no
