

I'll Come Runnin'

Olivia Newton-John

When the clouds surround you
And you're lost in the dark
When the sun won't come
And there's rain in your heart
When you need somebody
And there is nobody who understands
Wrap you need somebody
And there is nobody who understands
Wrap these arms around you
Take hold of my hand
Never have to feel alone
Oh you know where I am
Any time you call me
As fast as lightening I'll be there by your side
I'll be standing by

I'll come runnin'
You got someone
I'll always be there

I'll love away your troubles
When you're feeling low down
I'll be the friend you need
When a friend can't be found
I'll be the rock you lean on
When this old world just learns too hard on you

You just send a signal
I'll send you my heart
Never have to be afraid

When you're wrapped in my arms
Any time you need me
The wildest ocean couldn't keep me away
Just call out of my name

I'll come runnin'
You got someone
I'll always be there

I got something
You can trust in
I'll always be there

I'll come runnin', I'll come runnin'
I'll come runnin' baby

When you feel down
I will be around
Arms open wide
I'll be standing, I'll be standing by

I'll come runnin'
You got someone
I'll always be there

I'll come runnin', I'll come runnin'

I'll come runnin' baby
