

# I Never Knew Love

Olivia Newton-John

I asked you to come inside my heart  
And there you were  
I asked for a pure and gentle start  
And there you were  
I asked if this love could ever be  
The way that I've dreamt of it you see  
I never knew love

I asked you to open up my eyes  
And there you were  
I asked for the keys to paradise  
And there you were  
They say only ask and you'll receive  
I never knew that applied to me  
I never knew love

Life is good life is sweet  
It's the way that we perceive  
Cynics say we can dream  
Change your mind heal the world  
It's easy just believe

I asked for a change in all my life  
And there you were  
You're everything I had hoped to find  
Yes, there you were  
I hope and I pray that you will find  
A peace and a joy as great as mine  
All about love  
I hope you find love
