I Will Be Right Here

Olivia Newton-John

How can I say how much you've done for me How much I have just knowing I had you You touched my world And I'll never be the same You touched my heart And now everything has changed You are the one in this life I'll remember

Wherever you go Whatever you do Wherever you are My heart is with you No matter how far I'll always be near Whenever you need me I will be right here

There'll always be a part of you with me I hope there'll be a part of me with you Just call my name And I'll hear you on the wind Just close your eyes And I'll find you once again Just know that I'm on your side and remember

Wherever you go Whatever you do Wherever you are My heart is with you No matter how far I'll always be near Whenever you need me I will be right here

And when the wind touches you It will touch me too And the same star you see Will be the one that shines on me I'll be here when you need me I'll be here anytime Baby I'm on your side so remember I will be right here

Wherever you go Whatever you do Wherever you are My heart is with you No matter how far I'll always be near Whenever you need me I will be right here I will be right here I will be right here
