Loving You Ain't Easy

Olivia Newton-John

Loving you, loving you ain't easy
But I don't mind if I can stay here by your side

Every lonely road you walk along
I'll be there too
Just say the word love
And I would follow you
Every lonely road you walk along
I'd walk along with you
If only you would show me that you care

Loving you, loving you ain't easy
But I keep the pain inside and try to take it in my stride
Loving you, loving you ain't easy
But I don't mind if I can stay here by your side

Won't you stop and take a look at me
Tell me what you see
Someone who's always there when everything goes wrong
Won't you stop and take a look at me
Must I always be
The kind of fool that you keep hanging on

Loving you, loving you ain't easy
But I keep the pain inside and try to take it in my stride
Loving you, loving you ain't easy
But I don't mind if I can stay here by your side

There's been so many times I've cried
But you won't know it
Cause baby I don't show it

Ooohh
Loving you ain't easy
But I keep the pain inside and try to take it in my stride
Loving you, loving you ain't easy
But I don't mind if I can stay here by your side
