## **Moth To A Flame**

**Olivia Newton-John** 

Here again drawn like a moth to a flame An invisible force pulling me close to you I can't break free There's some kind of hold over me Like a magnet, you attract me like steel

I'm a kamikaze pilot, it's a one-way one flight Getting to you is getting to me Must be lack of oxygen I'm a do or die fanatic, no rationale Cause anyone else could tell You don't stand a snowball's chance in hell

Moth to a flame A fatal attraction I'm flying too close to the sun Sooner or later, you're gonna get burned Moth to a flame A lethal reaction I'm loving you under the gun It's just a matter of time before I get

Over my head in your quicksand bed The more I struggle the more I'm sucked in Here again drawn like a moth to a flame An invisible force pulling me close to you

I'm a kamikaze pilot, it's a one-way one flight Getting to you is getting to me Must be lack of oxygen I'm a do or die fanatic, no rationale Cause anyone else could tell You don't stand a snowball's chance in hell
