

Precious Love

Olivia Newton-John

In this world where life keeps changing
Nothing ever seemed to be enough
I kept on, my soul was searching
Looking for something that would fill me up
I have always felt a yearning
Something inside me was unsatisfied

Precious love
You woke my heart up
It's been sleeping for such a long time
This crazy feeling I can believe in
Your love has found its way into my life

Take our time, slow and easy
I'm so comfortable when I'm with you
Catch my breath when you come near me
Can't control this if I wanted to
Thought I'd never trust another
But here in your arms I feel safe again

Precious love
You woke my heart up
It's been sleeping for such a long time
This crazy feeling I must be dreaming
Your love has found its way into my life

You touched a part of me
And set my spirit free
Precious love

This crazy feeling I must be dreaming
Your love has found its way into my life
You know, your precious love has changed my life
