## Winterwood

## **Olivia Newton-John**

No one can take your place with me And time has proven that I'm right There's no place I'd rather be Than at your place for the night No time can pass your sight unseen No moment steals away unfound Lifetime lived in such a dream Floats like a feather to the ground

And for the first time I've been seeing The things I've never noticed without you And for the first time I'm discovering The things I used to treasure about you

Birds like leaves on winterwood Sing hopeful songs on dismal days They've learned to live life as they should They are at peace with nature's ways You are as natural as the night And all that springs from you is good And the children born beneath your light Are like the birds on winterwood

And for the first time I've been seeing The things I've never noticed without you And for the first time I'm discovering The things I used to treasure about you
