

# I Have To Dance

Olsen Brothers

In the land of 1000 dances,  
In the world that rules my senses,  
In my heart and soul a burning flame,  
When the Tango lights inside me  
When the rock starts rolling gently,  
And the drums start beating in my brain.

I have to dance, whenever the music starts to take me,  
Over and over I'll dance the whole night through  
I have to dance and every heartbeat takes me higher,  
Over and over I'll dance the whole night through.

Round and round we'll dance together,  
Till the music stops forever,  
And the last accord has faded away,  
Untill then i beg you baby,  
Don't say no - don't say maybe,  
Let me have the next dance with you.

I have to dance, whenever the music starts to take me,  
Over and over I'll dance the whole night through  
I have to dance and every heartbeat takes me higher,  
Over and over I'll dance the whole night through.

I have to dance, whenever the music starts to take me,  
Over and over I'll dance the whole night through  
I have to dance and every heartbeat takes me higher,  
Over and over I'll dance the whole night through.
