

Never Coming Back

OMC

Siale's gone away, and she's never comin' back here again
I understand, I know where you're comin' from
So take your time, you've planned this since the first time we
met, oh
Are you ever comin' back? Are you ever comin' back?
Are you ever comin' back? Are you ever comin' back?
Are you ever comin' back? Are you ever comin' back again?

First time I saw you, you were crowned in silver
You're hair full of fire, guess u would have been a goddess
Incognito, I would fortify & this shit, I was more than contemp
t
Ten times my eyes glanced upon your temple
But I never imagine your deep fantasies
In case you really had another lover, another brother
I know your name is desire
The words you speak chocolate coated whispers
You have a style so unique and pure

A vision from up above I think I'm infatuated by your spirit
As you passed by my eyes
I'm like a little child mesmerized by your magic
Well ten times my eyes glanced upon your temple
Well ten times my eyes glanced upon your temple
Time flies when you're havin' fun, well time flies when U're ha
vin' fun
Well time flies when you're havin' fun. well time flies

Siale's gone away, and she's never comin' back here again
I understand, I know where you're comin' from
So take your time, you've planned this since the first time we
met, oh
Are you ever comin' back? Are you ever comin' back?
Are you ever comin' back? Are you ever comin' back?
Are you ever comin' back? Are you ever comin' back again?

Time flies when you're havin' fun, well time flies when U're ha
vin' fun
Well time flies when you're havin' fun. well time flies

Siale's gone away, and she's never comin' back here again
I understand, I know where you're comin' from
Just take your time, U've planned this since the first time we
met, oh
Are you ever comin' back? Are you ever comin' back?
Are you ever comin' back? Are you ever comin' back?
Are you ever comin' back? Are you ever comin' back again?
