

# What Have We Done

OMD

Now that time, it came calling  
An angel has fallen  
And nothing can be how it's been

And when love seemed so heartless  
When light turned to darkness  
Now only her star can be seen

What have we done, done, done?  
What have we done, done, done?  
What have we done?  
What have we done?  
What have we done?

You could talk without speaking  
Cry without weeping  
Your secrets will never be told

Leave your bonds left unbroken  
Words left unspoken  
And dreams that will never unfold

What have we done, done, done?  
What have we done, done, done?  
What have we done?  
What have we done?  
What have we done?

So there's no one to cry for  
To lay down and die for  
Now only the scars can be seen

What have we done? (done)  
What have we done? (done)  
What have we done?

What have we done, done, done?  
What have we done, done, done?  
What have we done?  
What have we done?  
What have we done, done, done?  
What have we done, done, done?  
What have we done?
