Long Way Down

One Direction

We made a fire Went down in the flames We sailed the ocean And drowned in the waves Built a cathedral But we never prayed We had it all, yeah And we walked away

Point of no return and now It's just too late to turn around I try to forgive you But I struggle cause I don't know how We built it up so high and now I'm fallin' It's a long way down It's a long way down, from here

We had a mountain But took it for granted We had a spaceship But we couldn't land it We found an island But we got stranded We had it all Who could've planned it?

Point of no return and now It's just too late to turn around I try to forgive you But I'm struggling cause I don't know how We built it up so high and now I'm fallin' It's a long way down, from here Such a long way down It's a long way down It's a long way down Such a long way down It's a long way down It's a long way down It's a long way down
