

In the Stars

ONE OK ROCK

Sick and tired of waiting
So we learned to fly
What a wild ride

Brave enough to make it
And we're here to stay
Yeah we found a way

Susumubeki michi no sono mukō ni
We can make a new world
where nobody knows
Itsuka yume ni mita ano basho o

We're all the way up up up
We'll never look down down down
Breaking the ceiling
'cause I believe the world is ours

We're all the way up up up
We'll never look down down down
I got a feeling that it was
written in the stars
written in the stars

I wasn't born to follow
So I took the lead
I didn't lose the dream

Forget about tomorrow
Bring it on tonight
The sky's burning bright

We're all the way up up up
We'll never look down down down
Breaking the ceiling
'cause I believe the world is ours

We're all the way up up up
We'll never look down down down
I got a feeling that it
was written in the stars
written in the stars

If you ever get stuck with no where to run
When you're covered in clouds
I'll show you the sun
Our time to shine, we've just begun

We're all the way up up up
Koreijō wa mō nai kurai
Breaking the ceiling
'cause I believe the world is ours

We're all the way up up up
Todokanai kurai fly high
I got a feeling that it
was written in the stars

That it was written in the stars
written in the stars
