

I don't feel like I'm myself today  
Something in me just let go  
Took some medicine to numb the pain  
Went so dark, you'd never know

I'm being honest with you now  
Hanging by a thread, am I?  
Don't excuse this bad behavior

But tonight, I need a savior (oh-oh)  
And you're looking like a savior (ooh-ooh, ooh)  
Sometimes you need someone to save ya (oh-oh)  
Hoping you could be my savior (savior)

I don't feel like I belong today  
Something in me just walked out (yeah)  
So many things that people never say  
Like how I just need you right now (mmh)

I'm being honest, don't know why  
Hanging by a thread, I am  
If you leave, I wouldn't blame ya

But right now, I need a savior (oh-oh)  
And you're looking like a savior (ooh-ooh, ooh)  
Sometimes you need someone to save ya (oh-oh)  
Hoping you could be my savior (savior)

Yes, I have cried, mmh  
It's not so easy to show this side  
I jumped in this water  
Ooh, yeah, but you look like a bridge tonight

Almost like a savior (oh-oh, woo)  
That name you're calling when there's danger (ooh)  
Sometimes you need someone to save ya (ooh-ooh)  
Hoping you could be my savior (oh, ooh-ooh, savior)

Savior (woo, oh-oh)  
Savior (savior, oh-oh)  
Savior (savior, oh-oh, yeah)  
Savior (savior, oh-oh, savior)

I don't feel like I'm myself today  
Something in me just let go
