

# Time Warp

Ookay

I know that you would be aware  
With all but tomorrow, you go away  
There's nobody out I fall in love  
But I was hoping that you would stay

I lose the time faster when you hold me  
So hold me tighter don't you make a move  
Gonna miss you, gonna forget slowly  
And I don't like to be away from you

From the 24 seconds, turn to 24 minutes to the 24 hours  
Baby if you only knew  
We could be reckless, drowning music can tear you up, louder  
Tryna get lost in a time warp with you

So tell if I can get the time rewind  
The time when I'm walking with you  
Now that you can't get out of my mind  
Cause I get lost in the time when I'm walking with you  
What if I-  
So tell if I can get the time rewind  
The time when I'm walking with you  
Now that you can't get out of my mind  
Cause I get lost in the time when I'm walking with you

So come to my hood your [?]  
I know that you know me not for long  
Went down a place that we could leave  
Find out the mention to Carly Road

From the 24 seconds, turn to 24 minutes to the 24 hours  
Baby if you only knew  
We could be reckless, drowning music and tear you up, louder  
Let me get lost in a time warp with you

So tell if I can get the time rewind  
The time when I'm walking with you  
Now that you can't get out of my mind  
Cause I get lost in the time when I'm walking with you  
What if I-  
So tell if I can get the time rewind  
The time when I'm walking with you  
Now that you can't get out of my mind  
Cause I get lost in the time when I'm walking with you

I lose the time faster when you hold me  
So hold me tighter don't you make a move  
Gonna miss you, gonna forget slowly  
And I don't like to be away from you
