## **Another Disease**

Baby - you knock me down like a fucking disease Baby - you work it out 'til I'm down on my knees Baby - you keep me down though I'm begging you please Baby - and now I know there's no fucking release Dusk in my heart -Another day, another night Another ... bullshit! Another compromise Dusk in my mind -Another war another fight Another ... bullshit! Another false advice Burn my head now honey! You're just another disease Burn my head now honey! Blow my brains out honey! Just like another disease Blow my brains out honey! Baby - you burn me out like a fucking desire Baby - you spin me round and you set me on fire Baby - I want you now though I know you're a liar Baby - so ban my heart on a funeral pyre Dusk in my heart -Another day, another night Another ... bullshit! Another compromise Dusk in my mind -Another war another fight Another ... bullshit! Another false advice Burn my head now honey! You're just another disease Burn my head now honey! Blow my lights out honey! Just like another disease Blow my lights out honey! Dusk in my heart, in my mind, in my soul
