

# When I Met You

Opus

Was it a dream, or was it true  
I closed my eyes when I saw you  
I never thought that it could happen  
My heart went bang when I meet you

A lucky chance, or was it more  
so paralyzed like never before  
Forgot to dance and could say nothing  
'Cause it went bang  
When I meet you uhhh...  
When I meet you uhhh...

I think of my life, remember that day  
Remember the night, that changed my way.  
I know what makes my life worth livin'  
Since the day  
When I meet you uhhh...  
When I meet you uhhh...

I know my heart was an empty place  
All the time before  
But when you came I knew I'd found  
What I'm looking for

Is it the child or is it you  
You're all of my life, and that's the truth  
God really found my destination  
I got a sign  
When I meet you uhhh...  
When I meet you uhhh...
