

Leave Me Out

Orgy

I know you don't mind
Invading my space, just leave me alone
(get you're a** off the phone)
Just because you think I'm wasting your time
I'm losing my mind again, let's get it started

I think I'm losing my mind this time
With the drama you create all the time
Look up heard your worlds a mess
Now you're out of my head from the lack of respect

Suffer the aftermath
If you pass the test then you pass the class
And I know you'll never find out the reason
The reason why, why
Don't need this pain
That keeps f*****g with me in my life
Leave me out of it
Forget about this pain that keeps f***** with me in my life

Leave me out of it
So leave me out of it
Leave me out of it
So leave me out of it

I'll never be the kind
To follow in your footsteps
All your pockets filling up with lies
You and your b**ch - a*s friends

I think I'm losing my mind this time
With the drama you create all the time
Look up heard your worlds a mess
Now you're out of my head from your lack of respect

Suffer the aftermath if you pass the test then you pass the class
And I know you'll never find out the reason
The reason why, why
Don't need this pain
That keeps f*****g with me in my life
Leave me out of it
Forget about this pain that keeps f*****g with me in my life
Leave me out of it
So leave me out of it
