

Easy Way Out

Other Lives

I don't care too much for this sentiment
I was on the outside, inside the day
We can find an easy way out.
No you control the weather and I'll pay the rent
We could be happy in this settlement
We could find an easy way out
Until it founds you, the ever slow-
burn of many years behind you
Minutes before you reconcile.
I don't care too much for mourning the dead
We can find another, be happy again
We can find a easy way out, we can find an exit out.
And if your love should go, without a care
It's only us to throw, into you, into you.
I don't care too much for this sentiment
We've gone through the motions of our regret
We can find an easy way out.
Oh you control the weather and I'll pay the rent
We can be happy, no we can be happy-
If we could find an easy way out
Until it founds you, the ever slow-
burn of many years behind you
Minutes before you reconcile, I'll follow you
I don't care too much for this sentiment
We can find an easy way out, we can find an exit out.
Ooh We can find an easy way out, we can find an exit out.
