

End of the Year

Other Lives

It's the end of the year
It's the end of the year
But it's not too late

It's the end of the year
It's the end of the year
But it's not too late

It's the end of the year
It's the end of the year
But it's not too late
To start again

I've got sunshine
I've got laughter
Hello blue skies
There and afterward

You've got lucky
This disaster
And there you stay now
Here and afterward

This passing sleep
Won't bother me
I'm gone

This time of year
Won't bring us tears
I've gone too far

And there you are
On the western front
Daylight's in front of you
Your heart caves in

And there you go
Off on your own
December's gone
